Skills

- HTML | CSS | TailwindCSS | JavaScript | TypeScript | Python | MongoDB | PostgreSQL | Node | Express | React | Angular | Gatsby | Git
- Firebase | Figma | Rest API | JWT | Netlify | Heroku | Vercel | Stripe | Java | OOP | WordPress | PHP | Problem Solving-(Python)
- Linux | Ubuntu | cPanel | Frontend | Backend | Full-Stack | English, Bangla, Hindi – *All conversational proficiency or above*

Experience

Software Engineer   **Ayzenberg**   *Remote*   **03/2023 - 10/2023**

- Developed and maintained web applications using Gatsby.js, Styled System, Tailwind CSS, and Material-UI (MUI)
- Integrated and worked with Contentful, a headless CMS, to streamline content management and delivery
- Implemented GraphQL for efficient querying and manipulation of data
- Collaborated with a remote team to ensure effective communication and coordination in the development process

Software developer   **Beacon IT**   *Onsite*   **02/2021 - 03/2023**

- Worked as a Full Stack Developer at BeaconIT, contributing to the development and maintenance of various web applications
- Extensive experience with WooCommerce, including customization and integration to meet specific business requirements
- Managed and maintained cPanel environments, ensuring optimal server performance and security
- Successfully developed and deployed multiple WordPress applications, showcasing strong problem-solving skills and attention to detail

Projects

LMS System

11/2023

Developed a React.js application with Node.js backend following MVC architecture. Integrated SSLCommerz for secure course payments.

User Experience:

- Enabled user registration and seamless course enrollment
- Implemented daily milestone unlocks for ongoing progress

Assignment System:

- Facilitated assignment submission and evaluation
- Mentors provided feedback and assigned marks within the system

Performance Optimization:

- Conducted performance testing and applied optimizations
- Ensured the application was scalable for a growing user base

Technology Stack:

- Utilized React.js for the frontend, creating a responsive and interactive user interface
- Implemented the backend using Node.js, following the MVC architecture for a scalable and maintainable codebase

Education

Bachelor of Science   **BGC Trust University Bangladesh**

- Major in Computer Science and Engineering

Languages

- **Bangla** (Native)
- **English** (Conversational)
- **Hindi** (Conversational)

Others

- **Grand Award**: Won 1st prize for the development of a gesture-controlled Crane using OpenCV at a science fair **(11/2021)**
- **Bronze Award**: Won 4th prize in competitive programming onsite contest in Chittagong, Bangladesh **(12/2022)**
